

## WESTON PTO Science and Math Council

---

The mission of the PTO Science and Math Council (SMC) is to provide enrichment to the Weston Public School system based on the needs and requests of the K-12 teaching staff. The SMC previews, monitors, oversees, and provides funding for science and math programs that expand and support the existing curriculum. Another core function of the SMC is volunteering when needed during science- and math-related events.

Please join us and support the SMC. Check the weekly PTO Westword newsletter for meeting announcements and reminders. We usually meet on the first Tuesday of each month to discuss programming for grades K-5 and on the first Thursday of each month to discuss programming for grades 6-12.
